Summer Newsletter

*It is with great pride and pleasure that we introduce our newest practitioner,
Dr. Jeffrey Nishi, to Glendale Optometric Center.*

Dr. Nishi received his undergraduate degree from the University of California, Berkeley and majored in Integrative Biology. Dr. Nishi's credentials are impressive. He is glaucoma certified and practiced at the Veteran's Administration Hospital in Las Vegas, the San Diego Naval Hospital and the Huhukam Indian Reservation. Dr. Nishi is also an optometric leader to both his colleagues and community. He served as his class President at the school of optometry for three years where he led his graduating class to receive the doctor of optometry, is an active member of the Glendale Kiwanis Club and a volunteer provider for Glendale Healthy Kids.

Dr. Nishi was raised in Manhattan Beach where he served his community for eight years working for the LA County Fire Department as a lifeguard. When he is not working, he enjoys cooking, golfing and the outdoors.

**Another addition to the office:
Oakley Ophthalmic Frames**
